IN SIBERIAJaps and Social-Revolutionaries  
May Have Trouble

INVASION IS OBJECTIONABLE

American Commander Reports  
Forces Are Friendly

WASHINGTON -- Fighting between social-revolutionary forces and Japanese troops is expected to break out at any time in the Siberian area between Irkutsk and Vladivostok, according to semi-official advices received here Wednesday.

The social-revolutionaries (who are not Bolsheviks) have seized Vladivostok and are reported in control of all Siberia as far as Irkutsk, a distance of about 1,500 miles.

This is the territory into which Japan is sending fresh troops thru Vladivostok to prevent Bolsheviks entering it and menacing Japanese possessions.

As the slogan of the social-revolutionaries is "No foreign intervention in our affairs," there is believed to be danger of active hostilities. Officials here would not be surprised if the Soviets attempted to close Vladivostok against further landings of Japanese. It is hoped that all United States troops will be out of Siberia before trouble starts. About 4,000 remain, some of them in Vladivostok ready to sail, the remainder scattered along the trans-Siberian railway. There has already been one clash between the revolutionaries and the Japanese. This occurred at Khabarovka, far north of Vladivostok. The revolutionaries were fired on by Japanese, the message said, but they still hold the town.

Advices from General Graves, American commander in Siberia indicated the social-revolutionaries were disposed to be friendly. Officials here believe this friendliness will be manifested toward the Americans and other troops who are withdrawing from Siberia, but that hostilities will more than likely be shown the Japanese who are arriving in increasing numbers.

Vladivostok the revolutionaries have taken over the civil government but allied forces are patrolling the streets and order prevails, according to last accounts.

Allied intervention in Siberia caused the uprisings of social-revolutionaries, it was declared Wednesday by a high army officer in daily touch with the Russian situation.

WILL URGE GIRL  
TO FACE TRIALMonda Rose, Dual Person, to Be  
Interviewed by Employer.

CHICAGO.—Frederick G. Biehl, leather dealer, announced Tuesday he will go to Winnipeg to induce his pretty book-keeper, Rose Schweiburg, to return to Chicago to face an embezzlement charge.

He and Joseph T. Hass, the detective who discovered that Miss Schweiburg, "perfect book-keeper" and Monda Rose, society butterfly, were one and the same, will go with extradition papers to be used in event Miss Schweiburg resists.

Several days ago she was missed from her \$25 week stool at the leather establishment. At the same time Monda Rose, goddess of the younger set, disappeared from her luxurious apartment.

Miss Schweiburg was demure and added figures all day. Her mother was poor and worked in a box factory. "Monda Rose" was a society girl, rich. She had a chummy partner, and a saddle horse worth \$1,500 both of which she left here.

A few days after she disappeared, Rose's employer discovered a shortage in excess of \$10,000. It may reach \$50,000, he said Tuesday. Detective then traced Miss Schweiburg to Monda Rose's apartment.

A telegram which she sent her employer from Winnipeg, saying "I am going to eastern Canada to be married," led to her arrest in Winnipeg Monday night.

## WILSON AGAIN ILL

President Catches Cold—Narrowly  
Escapes Attack of 'Flu'.

WASHINGTON, D. C.—President Wilson's condition has not been so favorable recently, and has given rise to recurrence of alarmist rumors, which Dr. Grayson sought to allay today. The president's physician disclosed, however, that the president has caught cold and had a narrow escape from influenza.

Far from being able to attend to today's cabinet meeting, as it has been reported he would, the president is again being kept away from everybody.

Dr. Grayson has any suspicion that any person in the White House is threatened with a sneeze he sees to it that the person gets nowhere near the president.

BILLS RUSHED IN  
LEGISLATURESmith Amendment to Cold Storage  
Law Ready for Senate

COLUMBUS -- Legislators were speeding thru various bills pending before the close of the session, and expected to close up business not later than Saturday noon. Many measures remain which must be acted upon before the body of law-makers disband.

The Smith bill putting teeth in the Smith cold storage law was ready for the senate Wednesday. The house late Tuesday passed the bill which provides penalties for holding stored food over the time limit. The secretary of agriculture is given authority to seize and put on the market food held over the limit. One half of the money derived from the sale is to be turned into the state treasury and the balance returned to the owner of the food.

Representative Evans, of Lucas, guided his bill thru the house Tuesday which provides authority for the state utilities commission to regulate rates where franchise of street railways have expired. The bill applies especially to the Toledo street car situation. It goes to the senate Wednesday.

The judges' salary bill, backed by Representative Bliss, was sent back to the senate late Tuesday when the house refused to concur in the senate reduction amendments. The senate committee on cities was expected to report out for passage Wednesday the Brach bill which would enable Ohio municipalities to own, operate or control their street railway systems. Supporters of the bill will make strenuous efforts to bring it to a vote before the legislative adjourns. It has already passed the house.

The latest taxation proposal before the legislature is one which calls for the submission of a constitutional amendment. It wipes out the uniform rule of taxation and substitutes therefor a state income tax. Aggregate levies for current purposes, including sinking fund and interest charges shall not exceed ten mills, but the people may at a general election go as "high as the sky" by a majority of all the votes cast at such an election.

## UNION MEN HELD

Four Arrested On Charges Growing  
Out of Strike

LONDON, O. -- Four members of the newly formed stationary engineers' union, were under arrest Tuesday on charges growing out of a strike at the municipal electric light plant.

The men are Cliff and Roy Bowsher and Henry Morris, engineers at the light plant and Lewis McCann, president of the local union. They are charged with tampering with public property. It is alleged they entered the light plant Monday night and pulled the fires from beneath the boilers, leaving the town in darkness.

McCann pleaded guilty to the charge and was held in \$200 bonds for action by the grand jury. The others pleaded not guilty and were to be given hearings late Tuesday.

Need of Nurses

THEATERS ARE CLOSED

All Public Meetings Banned by  
Ada Board of HealthInfluenza is reaching a serious  
stage in communities near Lima

A survey of the scope of the disease in this section of Ohio was completed this morning, showing noted increases in the number of cases.

Two cities, Spencerville and Ada, are badly in need of nurses to care for those ill with the malady.

Theaters, entertainments and social gatherings have been banned in Ada until the disease subsides. Churches will have services Sunday, but, according to a member of the Board of Health, they may be closed if the situation is not improved by next Sunday night. Schools will continue sessions the remainder of the week, with plans being formulated for the suspension of studies if the disease continues to increase as it has during the past several days.

Mayor Harry Souster in co-operation with the Ada chapter of the American Red Cross has issued a call for nurses to relieve families where practically all members are affected.

Calls to Dayton, Springfield, Lima Toledo and Columbus failed to get for them either practical or trained nurses.

The Board of Health at Spencerville has advised against public gatherings and social gatherings, but have taken no definite steps toward closing such places where people may congregate.

Over a hundred new cases were reported in and about Spencerville yesterday, with an increase being evident today.

Schools and churches may be closed if the epidemic reaches a stage where local authorities are unable to cope with the situation.

As a means of preventing the spread of influenza, the Board of Health has ordered that cards be displayed in front of those homes in which a person is ill.

Dr. C. L. Miller, city health commissioner, of Wapakoneta, reported today that the number of cases of influenza is gradually increasing, but has not yet reached a stage where authorities think it advisable to close theaters and public meeting places.

Many Bluffton people are suffering from the malady, but the condition is not thought to have reached a serious stage. No deaths have been reported.

## STAND PUZZLE

Wilson's Attitude Toward Vietnam  
Gray's Letter Remains Question

WASHINGTON, D. C.—What is President Wilson going to do, if anything, about Vietnam Gray's letter, disclosing that Great Britain will accept the Lodge reservations to the league of nations covenant.

Sunday Democratic senators would like to know and are becoming restless as the silence of the White House on the British pronouncement remains unbroken. Many of them voted against reservations, they said, because the president had stated authoritatively that reservations would be rejected by Great Britain and the other allies and that the adoption of reservations would compel a reopening of the peace negotiations and a further postponement of peace.

## CLUE TO MURDER

Finger Prints May Lead to Arrest of  
Culprit in New York Tragedy

NEW YORK -- Finger prints on the bedroom door have given the police their latest clue to the murder of 17-year-old Ream Hoxie found dead, kneeling beside a bed in her home Monday afternoon, her head crushed with a hammer.

With a more exact description of the man believed to have committed the crime, after answering a "room for rent" advertisement inserted by the Hoxies, the authorities Wednesday continued their search of the city and surrounding territory for the "foreign looking man" suspected in the murder. Following the autopsy Dr. Charles N. Norris announced the young girl was killed by numerous blows on the back and side of her head with a hammer.

## PROMISE PEACE

Soviet Russia Will Recognize Independence  
of Estonia

LONDON -- Soviet Russia agrees to give unreserved recognition of independence of Estonia, under the terms of the peace agreement reached between the two nations, according to a dispatch from Reval.

The Russian soviet government also announces all rights to over-claim in Estonian territory, the dispatch said. It outlines the peace agreement as follows:

Both nations renounce any claims to indemnities.

Prisoners are to be repatriated quickly.

Russia is to pay Estonia 15,000,000 rubles in gold, but there will be no customs charges between the nations.

Estonia receives a concession to construct a railway to connect with the Moscow line at the Estonian frontier and permission to purchase 2,500 acres of wood land.

Russia receives the right to electric power from the Narova river.

AGREEMENT SOON  
ON CUMMINS BILLDecision on Railroad Legislation  
May Be Reached Today

WASHINGTON -- Agreement on railroad legislation may be reached Wednesday by house and senate conferees on the Esch and Cummins bill. Two points remained unsettled when the discussions were resumed Wednesday. One was whether the law shall prescribe the rate deemed adequate to insure railroad owners a certain definite financial return where the lines are handled by them or whether the interstate commerce commission shall be allowed to fix the rate. The other was whether the law shall set up a labor tribunal to adjust strikes and other disputes between workers and managements.

There will be no anti-strike provision in the bill as reported from conference according to present indications.

In general, conferees said Wednesday the measure that comes from conference, will recognize long established theories of railroad legislation rather than new ideas.

THREE AMERICANS  
ARE SLAINReport of Murders in Syria  
Reach State Department

WASHINGTON—Three American relief workers have been murdered by brigands in Syria, according to dispatches received Wednesday by the state department.

They were killed last Sunday near El Mali, north of Aleppo. The identity of the Americans was not reported to the state department. The relief expedition of which they were part was under the American commission for relief of the Near East which has headquarters in New York.

Official notification of the murders was given by General Gouraud, French high commissioner at Beirut to American Vice-Consul McCutcheon at the same place, who cabled to the state department.

General Gouraud expressed his formal regret.

"I COULDN'T BE HAPPIER," SAYS MAN  
WHO WEDS GIRL BROTHER WRONGED

Mrs. Perley R. Spiker and her husband's brother, Guy Spiker, on their way to Ellis Island to greet Miss Emily Knowles.

NEW YORK.—(Special) -- Guy Spiker of Baltimore is happy at the prospect of spending the remainder of his days with the pretty young English woman, Miss Emily Knowles, whom his brother, Perley R. Spiker, wronged while in England as a member of the A. E. F.

When Miss Knowles and her three months' old baby arrived at Ellis Island, on funds supplied by the wife of the father's baby, she was met and cordially greeted by Mrs. Perley Spiker and by Guy Spiker, her brother-in-law, who had promised to marry Miss Knowles before he had ever seen her.

The baby was the center of all eyes. Mrs. Spiker "appropriating" it, saying she "loved it and it was a dear little thing."

Miss Knowles seemed relieved when the bit of humanity, wrapped in a big brown checkered shawl, was put back into her arms. Mrs. Spiker is determined to adopt the infant, however.

"I am very happy that everything has turned out as it has," said Miss Knowles. "Mr. Guy Spiker (Perley Spiker's brother) is very kind and generous to want to marry me. Guy and I will be married at once."

"I want very much to keep the baby," she said, in view of Mrs. Spiker's unusual kindness. "I may be willing that she should technically adopt it. But I will see my baby often."

Mrs. Spiker emphasized that it was a lifelong observance of the golden rule that had prompted her not only to forgive her husband, but to do everything possible to right the wrong done Miss Knowles.

Mrs. Spiker said that as a school teacher in her native town at Harrisburg, W. Va. she had taught Guy as her pupil, the all-importance of the golden rule.

There was little of the musty formality of court proceedings in Judge Patton's charge to the temporary jurors.

"Now, gentlemen, I know no man of average intelligence is going to be influenced by gossip, but it's your duty not to talk about this case to any one. If you see anyone talking about it, you keep away. Don't stand around in groups that are discussing it."

Nine jurors had been tentatively accepted when court opened Wednesday.

RETURN TO BERLIN TONIGHT

France Probably Will Insist on  
Kaiser's Trial

PARIS. — Baron Kurt Von Lersner, head of the German delegation, has refused Wednesday to transmit to Berlin the allied list of war criminals and the peace-making covering note.

He returned to the hotel and the note to the German legation office and notified the German legation as promptly as the German peace delegation.

Following Von Lersner's refusal the French foreign office, which regarded his position as purely a personal affair and not the act of the German government, said that it was not the result of instructions from Berlin.

It was further stated that the foreign office that the allies have other means of transmitting the list and the note to Berlin, other than thru Von Lersner.

The note presented to Von Lersner late Tuesday with the list of accused Germans, including many of her most prominent generals.

It followed receipt of a note from Berlin asking moderation of the clause in the peace treaty demanding surrender of the German war guilty, on grounds their surrender would cause an internal crisis, possibly endangering the government.

Baron Von Lersner's action produced the same sensation in Paris as did that of Herr Von Simson last fall when he returned to Berlin after refusing to sign the protocol.

Germany must either quickly disavow Von Lersner or replace him," La Liberté declared. "Otherwise she will be guilty of complicity with him."

Von Lersner in his message to the foreign office, declared it was absolutely impossible for either himself or members of his delegation to assume responsibility for transmitting the allied list of war guilty and its accompanying note to Germany.

He announced the intention of the entire German delegation to return to Berlin Wednesday evening. This will leave Germany temporarily without representation in Paris.

Herr Von Moller, the recently appointed charge d'affaires, returned to Berlin from Paris last week.

Following receipt of Von Lersner's note the council of ambassadors met hurriedly in the foreign office.

The list of accused Germans it became known, is headed by the former crown prince and totals 594 names. Of the accused totals 294, whose delivery is demanded. France asks for 334, Great Britain 97, Italy 25, Belgium 334, Poland 57, Rumania 41, and Japan 50.

Dr. Theobald Von Bethmann-Hollweg, former chancellor, is demanded by Belgium. Surrender of France is demanded for "stealing a chateau." Opposite the list of accused submarine commanders are the names and dates of ships they sank.

The list includes one woman, Lisa Scheiner, whose surrender is demanded by the French for cruelty inflicted upon French women prisoners.

It was learned authoritatively that the council of ambassadors at its meeting Wednesday morning took the attitude that its action in remitting the list of accused Germans merely would place Germany in position to execute one clause of the peace treaty, which she is pledged to execute.

For this reason the council decided transmission of the list depends on Germany, not upon Baron Von Lersner.

MOTHER LEAVES BABY WITH  
FRIEND THEN DISAPPEARS

CLEVELAND—Mrs. George Fowler was hunted Tuesday for leaving her ten-day-old baby with Mrs. Hazel Sanders and failing to return for it. A note was found on the baby reading: "If I am not back by 2:30 p. m., I'll not be back at all."

Mrs. Sanders said the woman left the baby with her Monday afternoon and said she'd be right back. Later on they found the note. The baby was placed in an orphanage.

# RATIFICATION IS BELIEVED NEAR

Republican Senate Leaders Are Optimistic—Cloture Probable

## MUCH LEGISLATION NEEDED

Hays Expected to Urge Speed—Lodge Asks Aid

WASHINGTON — Treaty ratification within two weeks after next Monday is the plan of Republican leaders of the senate.

They are prepared to adopt cloture if necessary to bring it about. Democratic assistance in the passage of an amended cloture rule has been promised. The word has gone out that there is to be no repetition of the long debate that marked the treaty's former passage through the senate.

The imperative necessity of passing a certain amount of legislation is the reason. Fourteen appropriation bills must be enacted by June 30. The railroad bill is coming from the conference committee in a few days. It must be enacted by March 1, when the railroads go back to their owners.

The Republican national convention meets in Chicago June 8. Republican leaders are determined that essential legislation shall be cleared away by June 1, and an adjournment of congress taken. From that time they will have their hands full with campaign affairs.

Senator Lodge is seeking the help of Senator Underwood, one of the foremost advocates of compromise on the Democratic side, in his effort to hasten the treaty. Of course, Lodge seeks ratification with strong reservations, which Hittchcock, Democratic leader in the treaty fight, opposes. Lodge is doing all he can to get Underwood elected Democratic leader. Underwood and Lodge have daily conferences. Lodge has done what he could to get Senator Hoke Smith, of Georgia, to vote for Underwood. Smith holds the deciding vote to break the deadlock between the Hittchcock and Underwood forces.

Hittchcock and Lodge do not cooperate. Underwood and Lodge do. Underwood had a long conference Tuesday with Senators Pittman and Gerry, his managers, and there is evidence that he intends to bring the leadership question to an issue soon after Hittchcock returns from Nebraska Thursday.

Will H. Hays, chairman of the Republican national committee, is expected Wednesday to urge on Republican senators the importance of speedy action. Hays comes to meet congressional members of the committee on platforms and policies, an auxiliary of the national committee.

WAPAKONETA — Evidence that a fire in the Parlette model school east of Saturday night was of an incendiary origin was afforded when pieces of charred pine were found under the heater after the blaze which burned part of the floor was extinguished. The pieces of timber were taken from a well cabinet. It was also found that a metal covering over a window had been forced, and tracks in the snow showed where the incendiary had gained entrance at the window. The Duchouquet township school board and the fire chief of Wapakoneta, O. R. Vorhees, have laid the facts before the State Fire Marshal, and an investigation is being made. The building, a brick structure, was damaged only to the extent of \$30.

## ARMY HUT TRUCK HERE TO BOOST ENLISTMENT

Of considerable interest to pedestrians is the army truck, stationed on the Public Square Wednesday, by army recruiting men from Camp Sherman.

The truck is located on Main and Market streets and will remain in that location for one week. Men or all branches of the service will be enlisted at the truck which is fully equipped to suit the needs of recruiting office.

# SOCIALISTS PLOT NATION'S FALL

Using A. F. of L. as Lever Against Government.

ALBANY, N. Y. — The socialists are "boying from within" in the American Federation of Labor in an effort to seize control of that body and employ it as a lever to overthrow by force and violence, existing social, economic and governmental institutions, in the United States, according to evidence introduced Tuesday afternoon in the hearing of the five suspended socialist assemblymen.

The statement was made by Peter W. Collins, of Boston, whom the judiciary committee accepted as an expert on labor and socialist problems. He was connected with organized labor for 20 years and frequently held public debates with socialist leaders.

The testimony of Collins proved to be the first approaching the sensational evidence, which the committee lawyers had promised in the three weeks of the proceedings.

Among the statements made by the witness was that socialism, communism and Bolshevism are synonymous. He characterized trade unions as "constructive" and socialism as "destructive." He further emphasized the difference between the two movements by asserting that organized labor believes that capital has a legitimate function, whereas socialists are pledged to abolition of all capitalism.

## CONVICTS FOUND

Two Highwaymen Reported To Have Escaped Sing Sing In Dig-Out

OSSENING, N. Y. — Percival McDonough and Alfred Friedland, are back in their cells at Sing Sing Wednesday, after spending more than 50 hours in a dig-out under the prison yard. They had been missing since 5 o'clock Sunday afternoon when discovered by a squad of guards digging over a hollow sounding part of the yard late Tuesday.

The men, serving sentences for highway robbery, told the prison officials they hoped to lie in their dug-out for two weeks; wait for the "hue and cry" to die down and then slip over the walls and get away. They had provisions, tinned goods and cigarettes for about two weeks, in addition to blankets, extra underwear, solidified alcohol for cooking, a frying pan and a hammer and file.

## TAILORS DECREE HIP

POCKETS MUST GO

CINCINNATI, Ohio. — That national prohibition has arrived, will the hip pocket in men's trousers disappear?

The latest decree of the smart tailor indicate its disappearance—at least, eventually.

"Make them smaller" is the mandate just received by Cincinnati cutters.

The tailors point out that it is unhandy for the man to carry their handkerchiefs in the hip pocket and that, so far, about the only thing a flask can contain, available for the hip pocket, is wood alcohol. And no one wants that—if they know it.

## WALES TO TAKE FLING AT "SPORT OF KINGS"

LONDON. — The Kings winning of the second prize in the race of Derby Day at Epsom last year has roused ambitions in the breast of his son and heir.

The Prince of Wales will take a fling at the "sport of kings." It is understood that Lord Londsdale, England's leading peer-sportsman, will be the Prince's "turf adviser," and many expect to see the Prince's colors appear early during the Spring "flat" racing season.

## Leap Year Ceremony to Be Said At Second Show; Members of Audience May Contribute Cash to "Nest Egg"

Members of the audience at the second show at the Orpheum theatre Friday night will be given the opportunity to contribute, in whatever measure they wish, to the further prosperity of The News-Orpheum Leap Year Bridal Couple. Just within the entrance to the orchestra floor of the Orpheum, there will be a receptical in which all of those who so desire may deposit small amounts of cash, to be added to the "nest egg" of \$25 which will be given by the Orpheum theatre to meet emergency expenses incidental to the founding of the "thrill" home.

No one will be expected to make any contributions, but if each person attending this performance should give five, or ten cents, the total amount contributed to be their joint gift to the Leap Year Couple, the sum will approximate from \$60 to \$70.

The "gift box" will be presided over by one or more representatives of The Lima Daily News. As soon as the audience is seated, the box will be opened in the presence of a representative of the management of the Orpheum and the cash will be counted. The total amount will be announced from the stage and presented to the Leap Year Bridal Couple immediately following the ceremony. From the unparalleled interest which has been aroused by The News-Orpheum Thrift Wedding, indications are that contributions to the "gift box" will be more than generous.

From their splendid stocks of merchandise, each of the leading mercantile firms represented upon this page, is making some generous and useful present to The News-Orpheum Leap Year Bridal Couple. When all of these gifts have been received, the Thrift Bride and Bridegroom will have an initial supply of groceries, articles of wearing apparel, cash in bank, useful accessories for the home and a number of luxuries. The full list of presents will be announced from the stage of the Orpheum Friday night.

## NERVES AND INTUITION

MR. GAEL," said Joan, standing before him at the breakfast-table, "I'm a-goin' to work."

She was pale, gaunt and imperious. He gave her a quick look, one that turned to amusement, for Joan was really as appealing to the humor as a child. She had such immense gravity, such intensity of her one-syllable statements of fact, she announced this decision and sat down.

"Woman's work?" he asked her, smiling quizzically.

"No, sir," with her own rare smile; "I ain't rightly fitted for that."

"Certainly not in those clothes," he murmured, crossly, for she was dressed again in her own things.

"I'm a-goin' to do man's work. I'm a-goin' to shovel snow and help litch wood an' kerry in water. You tell your Chinese man, please."

"And you're not going to read or study?"

"Yes, sir. I like that. If you still want to teach me, Mr. Gael. But I'm a-goin' — I'm going — to get some action. I'll just die if I don't. Why, I'm so poor I can hardly lift a broom. I don't know why I'm so miserably poor, Mr. Gael."

She twisted her brows anxiously. "You've had a nervous breakdown."

"A what?"

"A nervous breakdown."

He lit his cigarette and watched her in his usual lazy, smoke-filled manner, but she might have noticed the shaken fabric of his self-assurance.

"Say, now," said Joan, "what's that name for?"

"There's a book about it over there — third volume on the top shelf — look up your case."

With an air of profound alarm, she went over and took it out.

"There's books about everything, ain't there? — isn't there, — Mr. Gael? Why, there's books about lovin' an' sickness an' about cattle an' what-not, an' about women and children. She was — shirking the knowledge of her 'case' but at last she pressed her lips together and opened the book. She fell to reading, growing anxiety possessed her face, she sat down on the nearest chair, she turned page after page. Suddenly she gave him a look or anger.

"I ain't none of 'is, Mr. Gael," she said, smote the page, rose with dignity, and returned the book.

He laughed so long and heartily that she was at last forced to join him. "You was — you were — jobbin' me, wasn't you?" she said, sighing relief. "I don't know what that volume said? It said like this — 'I'll read you about it.'"

She took the volume, found the place and read in a low tone of horror, he helping her with the hard words: "One of the most frequent terms of phobia, common in cases of psychic neurasthenia, is agoraphobia in which patients the moment they come into an open space are oppressed by an exaggerated feeling of anxiety. They may break into profuse perspiration and assert that they feel as if chained to the ground. . . . And here, listen to this, 'batophobia, the fear that high things will fall, atrophobia, the fear of thunder and lightning, pantophobia, the fear of everything and every one' . . . Well, now, ain't that too awful? An' you mean folks really get that way?"

Their talk was for some time of nervous diseases, Joan's horror increasing.

"Well, sir," said she, "lead me out an' shoot me if I get anyways 'ike that! I believe it's caused by all that queer dressin' an' what-not. I feel like something real today in this shirt an' all, an' when I get thru some work I'll feel a whole lot better. Don't you say I'm one of those nervous breakdowns again, tho, will you?" she pleaded.

"No, I won't, Joan. But don't make one of me, will you?"

"How's that?"

"By wearing those clothes all day and half the night. If you expect me to teach you, you'll have to do something for me, to make up for running away. You might put on pretty things for dinner, don't you think? Your nervous system could stand that!"

"My nervous system," drawled Joan, and added startlingly, for she did not often swear, "God!" It was an oath of scorn, and again Prosper laughed.

But he heard with a sort of terror the sound of her "man's work" to which she energetically applied herself. It meant the return of her strength, of her independence. It meant the shortening of her captivity. Before long spring would rush

up the canon in a wave of melting snow, crested with dazzling green, and the valley would lie open to Joan. She would go unless — had he really failed so utterly, to touch her heart? Was she without passion, this woman with the deep, savage eyes, the lips so sensuous and pure, the body so magnificently made for living? She was not defended by any training, she had no moral standards, no prejudices, none of the "ideals." She was completely open to approach, a savage. If he failed, it was a personal failure. Perhaps he had been too subtle, too restrained. She did not yet know, perhaps, what he desired of her. But he was afraid of rousing her hate, which would be fully as simple and as savage as her love. That evening, after she had dressed to please him, and sat in her chair, tired, but with the beautiful, clean look of outdoor weariness on her face, and had tried, battling with drowsiness, to give her mind to his reading and his talk, he was overmastered by his longing and came to her and knelt down drawing down her hands to him, pressing his forehead on them. For a moment she was stiff and still then, "What is it, Mr. Gael?" she asked in a frightened half-voice. He felt, thru her body, the slight recoil of spirit, and drew away, and arose to his feet.

"You're angry?"

He laughed.

"Oh, no. I'm not angry; why should I be? I'm a superman. I'm made — let's see — of alabaster. Women with great eyes and wonderful voices and the beauty of broad-browed nymphs walking gravely down under forest arches, such women give me only a great, longing to read aloud very slowly and carefully a 'Child's History of the English Race!' He took the book, tossed it across the room, then stood, ashamed and defiant, laughing a little, a boy in disgrace.

Joan looked at him in profound bewilderment and dawning distress. "Now," she said, "you are angry with me. You always are when you talk that queer way. Won't you please explain it to me, Mr. Gael?"

"Not!" said he sharply. "I won't. And he added after a moment, "You better go to bed. You're sleepy and as stupid as an owl."

"Oh!"

"Yes. And you've destroyed what

## What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrup. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. Her lips were quivering, her eyes full. "I try so awfully hard," she said. "It was a lovely broken trail of music."

He bent over her and patted her shoulder. "Dear child! Joan, I won't be so disagreeable again. Only, don't you ever think of me?"

"Yes, yes! All the while I'm thinking of you. I wish I could do more for you. Why do I make you so angry? I know I'm awful — aw-

# SIX MONTHS I COULD NOT WORK

Lydia E. Pinkham's Vegetable Compound Made Me Strong and Able to Work—I Recommend It To All My Friends.

Bayonne, N. J. — "I had pains in back and legs so that I could not stand caused by female trouble. I felt so tired all the time, had bad headaches, and for six months I could not work. I was treated by a physician and took other remedies but got no relief. A friend told me about Lydia E. Pinkham's Vegetable Compound and it has helped me very much. I am well and strong and now able to do my work. I cannot thank you enough and I recommend your medicine to my friends who are sick." — Mrs. SUSIE SACATANSKY, 25 East 17th St., Bayonne, N. J.

It must be admitted by every fair-minded, intelligent person, that a medicine could not live and grow in popularity for over forty years, and today hold a record for such wonderful success as Lydia E. Pinkham's Vegetable Compound, without possessing great virtue and actual worth. Such medicines must be looked upon and termed both standard and dependable by every thinking person.

## The Swift Year Book is Out

Swift & Company was a favorite topic of conversation last year. Committees investigated it, commissions attacked it, law makers threatened it, many condemned it. Presently people began to think about it; began to realize that Swift & Company was performing a necessary service in a big, efficient way; began to wonder whether it could be done as well in any other way. Read what Swift & Company did last year, and what it meant to you, in the Swift & Company Year Book, just issued. It's a fascinating narrative—simple facts in simple words. Just her tone showed him that still and ghastly youth, and again he saw the brown hand that moved. He had stood between her and that sight. The man ought to have died. He did not deserve his life nor this love of hers. Even though he had failed to kill the man, he would not fail to kill her love for him, sooner or later, thought Prosper. If only the hateful spring would give him time. He must move her from her memory. She had put her hands about his neck, she had laid her head against his shoulder, and, if it had been the action of a child, then she would have started from him with that sharp memory of Pierre. ## We Waste Too Much

WITH PROSPERITY all about us we are too prone to be wasteful. We throw away food and clothing every day that would make some individual in other countries happy and perhaps prevent death. We say we are able to do as we please and pay no attention to the welfare of others.

TODAY THERE are 5,000,000 children under 15 years of age face to face with starvation in Central Europe. Three million of these are not merely within the starvation line, but are at the gates of death. Only food and food immediately can prevent them passing to the great beyond. But still we throw it in the garbage pail and waste it in other ways. We do not know what it is to be hungry. We have never faced the conditions the people of war-torn Europe are facing. Placing the blame for the war cannot give us consolation in this matter, for the children who are suffering had no part in bringing about the terrible conditions.

THE RED CROSS and American Relief Administration is doing everything within their power to keep these little ones from death. They are appealing for help. Money in Europe will help little. It can be used in this country to buy food and solicitation is being made for funds by the two organizations mentioned. They are getting a ready response.

WE MUST DO more than give our money. We must save our food. It is not necessary to skimp ourselves. There is plenty, but we must stop our wasteful practices.

## Some Consolation

WHILE WE ARE digging down in our jeans and paying taxes hand over fist to our Uncle Samuel, we can get some consolation out of the fact that we are doing it and our grandchildren will be able to move and breathe without the terrible burdens they would be if put off.

OUR UNCLE is a good collector. He ran his per capita expenses up some twenty-one fold during the 18 months of war, but that didn't seem to faze him and he has set about getting the cash back in the coffers in a way that is being felt by every individual in the land. He has boosted up the taxes until the government is getting 569 per cent more money than it did before the war. The fact that this kind of tribute can be collected from its people and still have them generally prosperous is sufficient proof of the stable condition of the country. The nation is trying to pay as it goes, but it seems a little hard to us at times.

## Commercial Hari-Kari

A SUICIDE CLUB, and the greatest on record, is a new role for an industry, but that is the possibility our Commissioner of Navigation sees in the British coal industry. Looking at export coal as the factor around which British trade and shipping have for years been built, he computes a deficit in export coal cargoes from the United Kingdom in 1919 as equivalent to 19,000,000 net tons of vessel space.

WHAT HAPPENS in the British coal industry, therefore—whether it recovers and again becomes a normal factor in ocean trade or withholds its support from the great fabric of England's overseas business—our official says will be a large element affecting the type of vessels we should build, the ports to which they should run, and the financial arrangements of our steamship companies and exporters at home and abroad.

IT WILL SCARCELY do for us, tho, to become too forward in making plans on an assumption the British coal industry is going to commit hari-kari upon behalf of itself and the rest of the country. When Parliament shut up shop in December, for a vacation until February, the bill which had been prepared for doing some new things to the coal industry had been placed in the discard, and it was apparent that "nationalization" of British coal mines was an exceedingly remote contingency.

## AUTOBIOGRAPHY OF A PLAIN

## BABY—V

The Commissary Department  
A good many of us babies get a bad deal from the health-ignorance of our mothers. It's a queer thing, but beyond my feeble comprehension how parents will raise a daughter, and see her married off and imagine they have done their best for her, and yet they have never given her the slightest instruction in the greatest, the noblest of all callings, motherhood. Why don't the public schools, the high schools at least, teach such vital things? Looks to me as though the educational system, when they ignore and evade the greatest truths in giving future mothers and fathers what is called a "fair education." For I feel it unfair to have

Me and the doctor, says the cause of inflammation of the breast of a nursing mother is infection from the nipple. Trifling, perhaps, unnoticed cracks of the skin afford the means of entry for germs which are normally present on the surface of the cleanest skin. Therefore they went to considerable trouble and pains to keep the first four weeks of my life to the nipple, and surrounding skin carefully with boracic acid solution (tablespoonful of boracic acid dissolved in a pint of boiled water) and then to nurse with pure boiled water so that no taste of the boracic acid should be noticed when I nursed. After the fourth week there is much less likelihood of breast inflammation or abscess and the precaution may then be omitted, since the mother will have acquired natural resistance sufficient to protect her against the danger of such infection.

Two things I have heard father condemn in the most vigorous fashion. My dad can "condemn" some when he is good and mad, and some things I guess are enough to make a saint swear. Massage or rubbing of the breast of a young mother, and pumping with a breast pump are absolutely unnecessary and always dangerous if the baby is alive and able to nurse. What starts the fireworks with dad is the old women's yarn: "and imaginations about 'red breast'." True, when a breast is much inflamed from infection thru somebody's carelessness or uncleanness, the gland tissue becomes "hard," and in places. But to imagine that is from any change in the milk in the breast is absurd: it is merely a congestion or engorgement of the infected area with lymph, blood serum, such as occurs in and about any infected area. Rubbing or massaging such an inflamed area is not only at first "outrageously painful" but useless, and something exceedingly harmful, because it tends to spread the infection and increase the inflammation. The wise course in such a case is absolute rest of

## AKRON MAN SAYS HE HAS GAINED 18 POUNDS ON IT

'There's Nothing Like Tanlac' Declares Hall—Suffered Six Years.

"I count myself lucky that I got Tanlac, for since I began taking it I have gotten rid of a case of indigestion that had followed me for six years and have gained eighteen pounds in weight besides," was the statement of E. Hall, a well known employee of the Goodrich Rubber Company, living at 951 Bowery street, Akron, Ohio.

"For years," said Mr. Hall in explaining his case, "I could not eat any breakfast, and if I ate any supper I would just jitter about all night in such misery that I could hardly get any sleep. After meals the worst kind of pains would start up in my stomach, and then get into my chest and around my heart, almost cutting off my breath. Sometimes my heart would beat and palpitate at such a fearful rate as to make me think I had heart trouble."

"But stomach trouble is not the only thing Tanlac had relieved me of, for I had rheumatism in my legs that hurt like a bad toothache. I could not stoop over and straighten up without just suffering agony, but since taking Tanlac I never feel a rheumatic pain. I used to get so nauseated that I could hardly retain anything I would eat and I lost weight and strength continually. I was troubled with dizziness so bad that at times my head seemed to be spinning around like a top, and I was so weak and tired all the time that I never felt like doing a job of work."

"During the past two years I have been under treatment several times and tried numbers of different medicines, but never found anything to help me until a friend of mine who had taken Tanlac persuaded me to try that medicine, and then I commenced to straighten right up. All signs of stomach trouble and rheumatism soon left me and I enjoyed fine health until about a year later, when I was taken down with typhoid fever. This spell, of course, left me in a weakened condition and with occasional touches of indigestion. So I began taking Tanlac again, knowing so well what it would do, and in a few weeks time I was on my feet in good shape. My appetite was never better than it is now and I am getting three rousing meals a day without the least trouble with my stomach. I sleep like a school boy for ten or eleven hours a night and that tired feeling has left me entirely. In fact I have never felt better than I do now, and if I ever need medicine again I shall certainly take Tanlac. There's nothing like it."

Tanlac is sold in Lima at Hunter's Drug Stores and the leading druggists in every town.

the inflamed organ—the breast—should be properly supported and bandaged and not disturbed in any way, not even for nursing. If there is a chance that the inflammation may subside, this is it. The general condition of the patient requires attention by the doctor.

Father declares that the majority of breast abscesses and inflammations are due to ignorance, uncleanness, and unwarranted interference by unskilled or over-zealous "practical nurses."

QUESTIONS AND ANSWERS  
Apologetically Speaking  
I feel that I owe you an apology and a word of encouragement. My wife and I have always been proud of this. They have quipped and discussed us and followed us in our adventures. I myself had about decided they were all nuts. Well, to be brief, I had been a "nut" for 12 years. I knew it was a long time but I was unable to break away. Then one day the wife wrote to me a little memorandum. How to fix on a job. They had the silver solution prepared and informed me of things that I had entered in my first career. I willingly understood the regimen you laid down. It proved good. I have not smoked since one year. I have gained about fifteen pounds weight and am in better physical and mental condition than for several years. NOW I am a hardy fellow, do my tolls, no overwork on the job and everything, along with the girls. And when you tell our own we will not forget you. I tell you how much we like you. (R. D. LE)

ANSWER—High, some men do just what the women folks tell 'em don't they? It would be a great thing for the race if all men did as their wives, sisters, mothers or sweethearts would have them do.

## INFLUENZA WEAKENS THE BLOOD

Breaks Your Vitality—Leaves You Helpless When Exposed to Other Germs

THESE ARE DANGEROUS DAYS

If in Doubt About Your Blood Take Pepto-Mangan. Famous Red Blood Builder

If you are just recovering from a fight with the "flu," it will be weeks before you are really out of danger. Your blood has exhausted its strength—it is in no condition to fight off other disease germs it may be exposed to. That is why doctors advise staying away from crowds as long as possible.

You can help your blood get back its strength—its stability to fight off disease—by taking that splendid tonic Pepto-Mangan.

The famous blood builder will supply the iron and other properties your blood lacks and help you regain your old time vigor and enthusiasm. Get Pepto-Mangan today. It may be had at any drug store in either liquid or tablet form. Make your own choice as to liquid or tablet. They are exactly the same in medicinal value. Take which ever you prefer.

But be sure you get the genuine Pepto-Mangan. Ask for "Gude's" and be sure that the name is on the package. (Advertisement.)

## WHAT THE STARS PREDICT

This is a fortunate day. It is a lucky rule under which to make changes or seek positions or favors. Weddings have a good augury today and all social entertainments will be attended by good fortune. Slander and criticism and evil report are still prevalent and their influence will become stronger and stronger as the winter progresses.

## A SAFE TEST

For those who are in need of a remedy for kidney troubles and backache, it is a good plan to try Doan's Kidney Pills. They are strongly recommended by Lima people.

G. Schaaf, 707 Linden Ave., Lima, says: "I had rheumatic pains for several years and sometimes they were so bad I had to go on crutches. The last attack I had was three years ago and I couldn't get around at all. My knees were stiff and pained me and I was lame all over. My kidneys didn't act right, either. I asked a druggist for the best kidney remedy he had and he gave me Doan's Kidney Pills. Before I had used one box I was relieved and could get around much better. After using two boxes the pains were gone and all the aches through my back and limbs. I soon felt as well as ever and I haven't had any kidney trouble since."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Schaaf had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

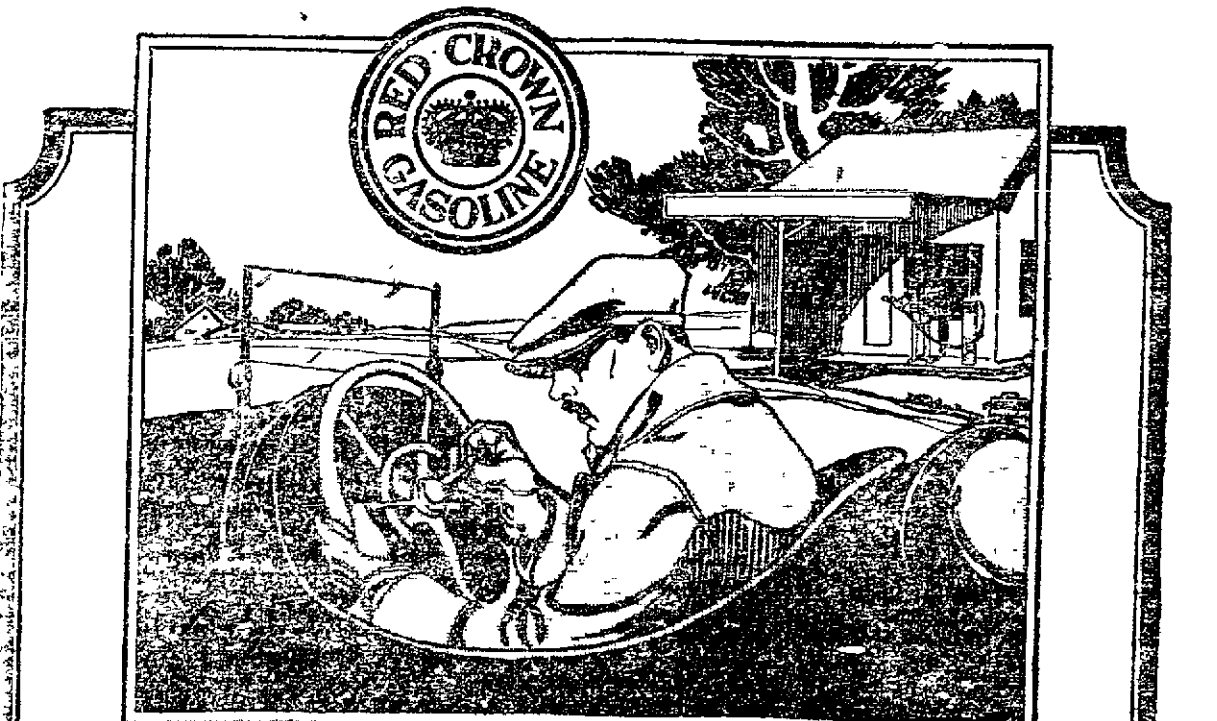

The stars indicate race troubles have an active and successful year. Children born today will be industrious and successful. Persons whose birthday this is will be prosperous and successful.

The ceremony was performed at the home of the officiating minister, Rev. J. Allen Canby, pastor of the Central Church of Christ. Only a brother of the bride-groom and the mother of the bride witnessed the ceremony.

## IN SUSIE SMARTS DAILY MAIL

Dear Miss Smart: I am a girl of sixteen and acquainted with a boy two years my senior. I think a lot of him in a friendly way. He does not live in the same town I do and we keep up a correspondence.

I only write to him and think of him as a true friend, as I am too young to think of him as more. I like him better than any other and in time he may become more than a friend. Do you think I had better keep up this correspondence?

It will be all right to keep up the correspondence, but not in any way encourage the young man to love you. Write less often and say nothing to give the impression that you care for him except as a friend. If he says anything definite about love you can reply that you are too young to consider such a thing.

Dear Miss Smart: I am twenty years old and have never thought of marriage. I have had a lot of girl friends, but have not found the right girl yet. She must be good-looking and with a reputation of being a perfect lady. I don't want her to be the kissing kind of a girl until we are engaged. Do you think I will ever find her? NEVER LOVED.

Your case is far from hopeless. There are girls such as you describe. Keep yourself worthy and trust that you will find such a girl.

Dear Miss Smart: Having read "Coyote" I want to cry out, "Twenty years and discouraged?" With years of youth and opportunity ahead, let the light of girlhood interest in all the wonders of this beautiful world shine out in your eyes and you will make many worth while friends. I don't mean get everyone with a giggle or stare, but that glimmer of alertness one sometimes notices even in older people whose spirit is still on tip-toe for what's around the corner.

You are young enough to prepare for some special line of work. Can't you go to night school? Try some trade—dressmaking, if you are handy with a needle, or learn to be a maker in a millinery department or shop where you can work up to a very good salary.

Getting out in the business world would bring you in touch with more

## WHO SAID FRINGE

It looks as though fringe were going to join the ranks with lace and ribbon trimming as something which is "always good." It was predicted last spring that the vogue for fringe was just about over, but the new frocks would make us doubt that, for there is much fringe being worn, especially long fringe on afternoon frocks and dinner gowns. Here is one of the newest models for early spring wear which proves that fringe is still an important feature in the fashion world.

A rich shade of brown georgette is used to fashion the frock which is built on straight simple lines. It is embroidered in an all-over design which is partly concealed by the fringe tunic. The fringe is fastened to the skirt and it falls below the hem of the skirt in true Hawaiian fashion. The designer has given us something very novel in the sleeves of this frock. They seem to have started off from under the armholes, but then changed to a graceful flowing effect.

The little hat worn with this afternoon frock is also worth noticing. It is made of brown satin much be-ribboned with loops of many colors trimming the crown.

Mr. and Mrs. Seward Folsom, of the Thomas apartments, have had as their guest Mr. Folsom's mother of Circleville.

## Love and Married Life

By IDA McGLONE GIBSON

### THOUGHTS OF JOHN

"DON'T you think, Katherine," said Helen, "that you are to introspective? It seems to me that your life with John must come out right in the end. Getting adjusted is the crux of the matter."

"But, Helen," I answered, "some people never become adjusted! I have almost come to the conclusion that John and I are one of those couples."

"If you do believe that, Katherine," she said, "why don't you get a divorce?"

I caught my breath quickly. Although I had been the one to say many times that I could not live in this way, to have the divorce idea put into words by some one else, struck cold to my heart.

I didn't want to leave John! I really loved him. But, oh, how he did hurt me every day! And he seemed to be doing the very thing that he was doing was the very refinement of torture!

"Perfect Understanding Impossible." The very attitude that he took toward my friendship with Helen was one of the things which made impossible a perfect understanding between us. He made me insincere by his own hypocrisy.

Today I was almost ready to doubt the feasibility of marriage as we know it. Man-made laws are ever making a strenuous fight against the great cosmos. I was almost ready to subscribe to the idea of warring sexes, for between John and me there seemed to be nothing that might be called friendship and understanding.

And yet I have never for one moment been able to deny to myself my love and desire for him.

I did not say these things to Helen because I felt that she might think that I was slightly demented if I did so.

John is not yet able to see why I am what he calls indifferent to him. I am quite sure that one of the things that brought you to me as a certain independence and individuality which you have not found in your own women folks. I am sure, lover, that you would never have fallen in love with the type of women you are trying now to make of me.

Promises to try. "But I will try, John, to come nearer to your standards of a wife. If I succeed in making over into the foolish, incompetent parasite that he would say that I was ungrateful and disagreeable to a degree, and he would point to the fact that he loves me with presents and tries to fill my life with more luxury than I had ever known before my marriage to him."

Bored to Tears. John doesn't understand that the presents he gives me are always the things he wants to give me; that he is always thinking that I should be pleased with this or that, when if he would only stop a moment to find

# ANOTHER VICTORY FOR ST. ELMAS

Kid St. Elmas added another to his list Tuesday night as he won a decision over Frankie Eagle, Michigan bantam champ, in a ten-round go.

Reports of the scrap give the Kid 6 of the 10 sessions. St. Elmas' best work was done in the last three rounds when he repeatedly rocked the Michigan kid with swift wallops to the jaw and body.

The local boy was outwitted four and one-half rounds.

**JOHNNY NEWT WINS.**

Johnny Newton, former local boy, won over Joe Price in a ten-round go at Mansfield last Thursday night in as pretty a battle as could have been seen. Charlie Maxwell, local referee who handled the fight reports, Maxwell who witnessed the defeat of Jacques Burdell by Young Erle says that the Frenchman would be no match for Kid St. Elmas, local boy, whom promoters are figuring on making.

**ELVES OFFER.** They his win over Frankie Eagle, Kid St. Elmas has been offered bouts at Kalamazoo, Flint and other parts of Michigan. Manager Ed Schellert of the local boy announced Wednesday.

What match St. Elmas will accept has not been made known but it is believed that he will crack up with a tough boy in the Michigan state before long.

## GETTING READY FOR FRACAS

Chicago will be the scene of the most important boxing meeting held in ten years when the morals of both majors and minors get together at the Windy City next week.

A new man will be selected to sit in the chair vacated by Garry Herrmann, retired National Commission President.

Charlie Condit, king of the Sox, the Yanks and Red Sox who are opposing Ben Johnson will be present to settle the argument against the American League leader. Minors will present their plans for approval.

Rules committee will discuss changes and may advocate some radical ones regarding pitching.

## COLLEGES MEET IN RING TILTS

OXFORD — Something new in the line of college sports has been arranged between Miami university and the University of Cincinnati. A boxing tournament will be held on March 26 in the gymnasium of the Cincinnati institution. There will be bouts in all the weights, and professionals will referee the bouts. Sixty young men are now training in Miami university, under the direction of Professor Charles H. Handschin. Every afternoon from ten to fifteen bouts are boxed in Miami's gymnasium, and great interest is being taken by the boys in their new course.

## Constipation

**Bleediness-Headache-Dr. Chase's Liver Tablets**—The liver is the most important organ in the body. When it is diseased, it causes constipation, headache, and other ailments. Dr. Chase's Liver Tablets are a powerful purgative and will cure all liver troubles.

## BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't irritate the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 10c and 25c.

## CARPENTIER TO COME ACROSS

A Paris announcement of Tuesday claims that Georges Carpentier, his wife and manager will leave for America in a short time.

Carpentier is at present touring the providence, his manager, Descomps says. At the end of the tour he will come to the United States.

The Frenchman will not come here in view of fighting but mainly on a pleasure tour. At the end of the trip, according to Descomps, he will probably sign for a go with Dempsey and remain over here for the night.

## MULLIN LANDS K. O. PUNCH

Hope Mullin, big local favorite, middle-weight champion of Indiana, and Ohio stopped Kenne Maly in the fourth round of their scheduled ten-round scrap at Dayton, Ohio, Monday night.

Mullin had the best of the fight from the start of the game and put Kenne out for the count in the fourth session with hard jabs to the body and face.

## YANKS UNCONCERNED OVER H. R. BAKER

If H. R. Baker decides to return to the game he will be Miller Huggins' first choice. The third baseman of the Yankees told the third day ago at meeting between the two at Trappe, Md. Huggins is not worried and says if the slugger desired to stay out of the game he may do so without being interrupted.

## DEMPSEY WILL BE HEARD

BY HENRY L. FARRELL.  
NEW YORK — Jack Dempsey, world's heavyweight champion, will be given a chance to clear himself of "drift dodging" charges.

The Army, Navy and Civilian board of boxing control, to whom the champion appealed for a hearing, has reconsidered its previous decision to remain out of the controversy over his war record and will sit in judgment on the case February 11.

The committee, acting as a court, is to consist of Alfred L. Marill, counsel to the board, chairman; Major A. J. Drexel-Biddle, Gutsen Borglum, the sculptor; Dr. Joseph E. Rayeroff, of Princeton, former head of army athletics; Robert Keger, former sports editor of the New York World; John S. Smith, chairman of the New Jersey state boxing commission; Roswell F. Patton, R. Breckinridge Steele and Adams Emple.

The committee Wednesday wired Harold Hearn, manager of the champion, of its decision and it was thought that Dempsey might attend the hearing in person, as in making the appeal, he expressed willingness either to appear personally or file an answer to any questionnaire submitted.

## WILL FIGHT FOR A. E. F. HONORS

Sergeant Ray Smith, who gained into prominence by boxing, with Bob Martin announced Tuesday that he will fight Bob Smith shortly for the heavyweight championship of the A. E. F. He says the fight will probably be staged at Akron the 23rd of February. They will battle 15 rounds, Smith to receive a guarantee of \$2,000.

## LOCAL BOWLING TITLE STAKED

The bowling championship of Lima will be settled Wednesday afternoon at the Lima club with meeting of Garford and Lima club pin men in a special match.

Members of the two teams have advertised the match as a championship affair and will be tuned up for the occasion.

The Lima club team will have: A. Ritzler, George Bayly, Ollie Smith, Joe Federman and Joe Goodrich.

## RUTH TWENTY-SIX ON NEXT SATURDAY

NEW YORK. — George "Babe" Ruth, world's greatest slugger and the highest priced ball player of all time, will celebrate his twenty-sixth birthday next Saturday. The Yankees' latest acquisition first saw the light of day Feb. 7, 1894, at Baltimore, Md. Six years made a great difference in the life of Ruth. In 1914 he was in a reformatory at Baltimore, to which he had been sent because of his failure to attend school regularly. It was while in the reformatory that Ruth began his career as base ball player.

**ROLLS PERFECT SCORE.** AKRON — Frank Brennan, one of the city's leading bowlers, rolled a perfect score Tuesday afternoon in a match game here. He threatened to turn the trick two weeks ago when he tallied 208 in one game.

## LEGION MAY DROP OTHER HONORARY RANKS

Revelations that honorary membership in the American Legion is forbidden by constitutions as a result of the attempted action of the Milwaukee post to elect Jack Dempsey to membership, may result in dropping from the legion's roster the names of a number of men added as honorary members. The national legion officials will settle the arguments.

A long spring interleague series of 1920 will be played by the Mackmen and Cardinals. They have arranged for a string of seventeen games in Texas towns.

On the heels of the win of Joe Stecher over Earl Caddock comes the announcement that Stanislaus Zyzsko, Polish wrestler, will arrive in this country shortly and try to secure a match with Stecher for the title. Zyzsko like his brother Whadek, is regarded as one of the best grapplers in the business.

## 2,771 MARK BEST IN STATE TOURNEY

Twelve teams opened the 17th annual tournament of the Ohio States Bowling Association here Tuesday night, Firestone Team Number 1, taking the lead with 2,771 pins.

This is within 31 pins of the mark made by the Pastora Cigars of Dayton in winning the 1919 tourney and within 199 of the state record.

Al Schrock, lead-off man for the high team, carried his crew thru with a 225 score in the first game and a total for three games of 587.

## VALGER MEETS PAL MORAN

Benny Valger, French feather champ, will meet Pal Moran for 15 rounds to a decision on Feb. 27 at New Orleans. Valger will receive a guarantee of \$5,000 for the bout. Ted Kid Lewis, still in England, has been offered a bout with Johnny Busham, English welter for twenty rounds to decide European title. The bout would be held the last of this month.

## FILTON WINNER

BOSTON — Fred Filton, the Minneapolis heavyweight, knocked out John Lester Johnson, colored heavyweight of New York, in the eighth round of a scheduled 12-round bout here Tuesday night. Filton landed a stiff left hook on Johnson's stomach that put him away.

## ALEX AND ED NOW TUTORS

The University of Illinois should have a good baseball team if teachers count for a lot.

Grover Alexander was first hired to teach the Urbana athletes the art of pitching.

Now Ed Pfeffer of Brooklyn, has joined Alex at the Illini camp. Alex says that Illinois has a strong pitching staff, with some big league material a possibility.

Connie Mack plans to build a pitching staff around Scott Perry, Jim Johnson and Naylor. Mack will take a number of promising youngsters to the training camp next month.

## The Whole Secret of A Better Tire

Simply a Matter of the Maker's Formula

This you will realize—once you try a Brunswick—that a super-tire is possible only when the name certifies that the maker is following the highest standards.

For tire making is chiefly a matter of standards and policies—cost plus care. Any maker can build a good tire if he cares to pay perfection's price.

All men know Brunswick standards, for Brunswick products have been famous for 74 years.

Formulas, fabrics and standards vary vastly in cost. Reinforcements, plies and thickness are a matter of expense. And these variations affect endurance. It rests with the maker how far he wishes to go—how much he can afford to give.

For there are no secrets nor patents to hold one back.

To ascertain what each maker offers one must analyze and test some 200 tires—as our laboratories have done.

Then it is a matter of combining the best features and building according to the highest standards.

Once you try a Brunswick you will understand how we have built model tires, regardless of factory expense.

Yet Brunswick Tires cost you the same as other like-type tires. Our saving is on selling cost, through our nation-wide organization.

We realize that you expect more from Brunswicks, and we assure you that you get it. ONE Brunswick will tell you the story.

And then you'll want ALL Brunswicks. No other tire, you'll agree, gives so much for your money.

NO sting or hot burnin' is a mighty weak-kneed recommendation for tobacco. But when tobacco is mild and cool, and yet as full of "fun" as a barrel of monkeys—well, that's another story—that's Velvet.

And 'cause why?

'Cause Velvet is brought up—not jerked up by the hair. It's raised as carefully as a favorite child. It's cured in the big fresh air. And it mellows away for two years in wooden hogsheads 'til it's smooth and rich as cream. The wonder would be if Velvet wasn't a whacking good pipe smoke.

"Let Nature mellow yo' tobacco an' that tobacco will shore mellow yo' nature," says Velvet Joe. And he's pretty nearly right.

NATURE-AGEING in the wood does more to make tobacco friendly than any camouflage you can cover it with—and don't you forget it. See, taste, smell, feel the "real tobacco" in Velvet. Why, you can almost hear it. Velvet's the tobacco you can judge with your eyes wide open and specs on.

There's a whole lot in Nature's way of making good tobacco better. And it's all in Velvet.

Here's to a full pipe and a friendly one.

# SCREEN ASKS: IS THERE A HEREAFTER?

REGENT PRESENTING ANSWER TO BAFFLING QUESTION

OUR OWN MOVIES

By NATE COLLIER

By ESTHER WAGNER.

THE most baffling question of ages, "Is There A Hereafter," is the fundamental thought of the new Griffith Production, "The Greatest Question," which begins a four day engagement at the Regent Theater today. Dainty Lillian Gish is the heroine in the picture, and Robert Harron plays opposite, a very attractive pair, you must admit.

The story has its setting on a farm among the home folks. The family is poor, happy and contented, until the call of the Great War reaches the oldest son, who, incidentally, is the only support. The boy meets death when, rather than risk the lives of the submarine crew by opening the conning tower, he permits himself to be swept overboard when the vessel is compelled to submerge before an enemy destroyer. Thus the faith of the whole family is shaken, and their prayers for their son's support seem to have been in vain. Then the greatest question forges its way into the minds of this family, as the mother goes to the tiny shrine erected to her boy's memory in the village graveyard, where she invokes the guiding hand that guides over all to show her that her prayers were heeded. She sees a vision of her son, and she is satisfied. The picture is produced in a masterful way, and the cast is well selected. Though movies come and movies go, "The Greatest Question" is one that you will never forget.

Mrs. Bowman Says, I Was Weak And Nervous And All Run Down.

## FEEL FINE NOW

Says Nuxite Has Built Her Up And Made Her Feel Ten Years Younger

"I am more than pleased to give my endorsement for the great good received from the use of Nuxite, it has done me more good than all the medicine I have ever taken," stated Mrs. Albert Bowman who lives near Spencerville, Ohio. Continuing she said her condition was manifested mostly by a weak feeling in her stomach, accompanied by that tired and worn out feeling which goes with a weakened, tired and run down system. "I kept going and thought that in time I would be able to wear the trouble out, but it seemed to get worse instead and finally caused me to become extremely nervous as well. My stomach bloated up after eating, and shortness of breath, my wrist and joints were stiff and ached, no energy or ambition, just felt bad all the time. Tried so many different medicines without getting any results. Before I began using Nuxite I had noticed a great deal about it in the Lima papers and I had become convinced it was a new kind of a medicine, entirely different from the kinds which I had seen advertised so much in the newspapers. Finally I made up my mind to give Nuxite a trial. I purchased by first bottle of Nuxite. After taking it I noticed a marked improvement in my condition. My appetite is good, food digests alright, don't have that bloating and shortness of breath, my wrist and joints are not so stiff. I feel stronger, better in every way.

I am thankful that I found such a wonderful preparation as Nuxite. It has surely done me great good. I want everybody that suffered as I did to try Nuxite. It does as represented. The preparation Mrs. Bowman refers to is sold at Hunter's, Public Square Drug Store, Lima, Ohio, where W. R. Cooper, the Nuxite man is making his headquarters. Nuxite may be obtained at Theo. Siebert Drug Store, St. Marys, Ohio, S. E. Lewis, Columbus Grove, Ohio, Forest D. Christian, Sidney, Ohio, Central Drug Store, Wapakoneta, Ohio, Dr. Hunter's, Wapakoneta, Ohio.

LYRIC.—Surprises follow in quick succession in Madge Kennedy's newest Goldwyn picture "Through The Wrong Door," which comes to the Lyric today. A romantic rich girl accompanied her father west in search of a hero, but it seems her search is fruitless. She has almost decided that her father's choice for her, an idler, is all that life has in store for her. She goes to a wrong address, and meets a westerner who, unknown to her, has been defrauded by her father. You should see Madge washing dishes! And what is more unusual, she defies her own father and throws in her lot with the westerner. It's an entertaining film and shows the vivacious Madge at her best.

## SWITCH OFF!

Put aside the Salts, Oil, Calomel, or Pills and take "Cascarets."

Are you keeping your bowels, liver, and stomach clean, pure and fresh with Cascarets, or merely whipping them into action every few days with Salts, Cathartic Pills, Oil, or Purgative Waters? Stop having a bowel wash-day. Let Cascarets gently cleanse and regulate the stomach, remove the sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the colon and bowels all the constipated waste matter and poisons so you can straighten up. Cascarets tonight will make you feel great by morning. They work while you sleep—never gripe, sicken, or cause any inconvenience, and cost so little too.

## Break a Cold WITHOUT NASTY QUININE

Don't stay stuffed-up! Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken usually breaks up a severe cold and ends all gripe ulcers. The very first dose opens your clogged-up nostrils and the air passages of the head; stops nose running; relieves the headache, dullness, feverishness, sneezing, soreness and stiffness. "Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance, tastes nice no quinine.

## EXTRAVAGANCE IS CAUSE OF BREAK

Most Terrific Fall in Foreign Exchange Due to People Situation NOT ALARMING Will Return to Normal When Imports and Exports Balance

WASHINGTON. — Startling declines in foreign exchange on the New York market, the pound sterling touching \$3.20 Wednesday, are a logical development of the extravagance being indulged in by the people of Europe and America, according to the view of government financial experts here Wednesday.

There is nothing alarming in the situation for the United States, they believe, and in the end the decline may have a good effect by forcing the nations to get back on a normal trade basis. Both Europe and America must get to work and increase production, these experts hold.

The foreign exchange situation will return to normal, it was said, only when imports and exports of all countries come to an approximate balance. For the United States this means a probable reduction in exports and an increase in imports, it was indicated.

The situation is explained this way:

During the war all belligerents regulated exports and imports so that only commodities needed to carry on the conflict were exchanged. The world went short on hundreds of commodities it consumed in big quantities in peace time.

When the war ended and world commerce restriction were removed, all countries engaged in a rush to stock up on commodities that were short. Many countries insisted on stocking up by importing these commodities instead of producing them. The result was that those countries which had such commodities in abundance developed an unheard of rate of exports. At the same time they failed to develop their imports in like quantities.

The United States became one of these selling countries.

For more than five years, this condition has prevailed as far as the United States was concerned. Exports expanded billions in excess of imports.

The world bought in the United States. Other countries did not stop to produce goods in exchange for their purchases. They bought on credit.

Some Americans will suffer a direct financial loss as a result of the downward plunge of exchange Tuesday and Wednesday. They have been holding francs, lire, and pounds sterling to sell at higher rates.

When the market began to drop they rushed in all together and tried to sell in order to get out with as slight loss as possible. Their rush only served to further depress the price.

Wednesday's new record low level, therefore, does not represent the actual value of foreign exchange, officials here say. It may be months, perhaps years, before the foreign exchange rates reach the pre-war level.

Officials say they hope the period of reconstruction will be short. Its length depends on how soon the world gets back to work, increases production and halts extravagance.

At the end of the first hour demand sterling was quoted at \$3.24.

## IMMEDIATE DECREASE IN LIVING COSTS EXPECTED

Decrease in cost of living as a result of the drop in British exchange was seen as a probability here Wednesday by Percy R. Johnston, president of the Chemical National Bank.

"It will cut down our exports, I believe," Johnston said. "This will throw larger quantities of American goods on the local markets and will, in all probability, result in a decrease in prices."

"The present situation is result of our enormous exports within the last three months. The growth of exportation was too sudden and too great to maintain normal exchange conditions."

**BULLETIN**  
**NEW YORK**—Reports were current here in commercial agencies that England has stopped cotton imports owing to the collapse in sterling exchange.

London's most serious showed a marked loss, which was noticeable until the close.

## Lima Stock Markets Scene Of Activity

Lima stock exchanges were alive with local interests today and many comical features were noted when the bottom fairly slipped from one of the issues—then from another.

Some of the spectators faces were marked with solitude, while others laughed and joked as their money slipped temporarily away in one of the largest shocks encountered in the stock market.

A tick, then another tick—Studebaker down, oil down, steel down.

And then with the other ticks everything went down. Even the spirits of the operators went down. And the worse thing their dollars went down.

Several people were anxious to sell stocks and rumors were current about the exchanges that much stock was sold by Lima men at big losses.

Little groups congregated in the corners of the spacious "ticker" rooms. A little silent discussion followed with a facial expression of contempt. Then a nod, suggesting an agreement.

No doubt tomorrow will see many limiters in mourning.

Weakening of Silver on Foreign Exchange Promotes Slump  
GRAIN IS AFFECTED  
Noted Decrease Predominates in Various Markets

The stock market took a tilt today. Everybody seemingly became much excited when the greatest single drop demand took place since the present decline in foreign exchange was made Wednesday. The British pound opened at \$3.27 1/4 off 5 1/4 cents from Tuesday's close.

Then again the holders of stock wiped the sweat from their brow when a prominent banking interests predicted that the bottom has not yet been reached in the slump of foreign moneys in exchange for American dollars, and further declines before the market closed tonight were expected.

There was scurry and scuffle in practically every market exchange in the east and middle-west today, with people possessing stock trying to dispose of it the quickest way possible and stand the loss.

Oil shares were especially weak as a group and sold off sharply in the first hour under the leadership of the Doherty issues.

Mexican Petroleum broke 2 1/8 to 186 1/2; Pan-American 1 1/2 to 88; Middle states 1 1/2 to 31, and Sinclair 1 1/2 to 28.

U. S. Steel showed a disposition to rally, selling up to 102 5/8, a recovery of 3/8 from the opening. American Woolen continued under pressure, receding two to 133.

Urgent liquidation broke out in American Sugar, which sold down to 129, off 3 1/4 at times losing a point between sales. American Hide and Leather preferred was 113 1/8, off 7-8.

The cash market showed a disposition to return to the general downward trend, but not issues only eased off fractionally.

Steel common and Baldwin offered the best resistance to the great outpouring of stocks in early trading and strength in these issues served to strengthen the general market early in the second hour.

Baldwin rallied to 111 7/8, and steel common to 102 1/2, and their recoveries started a similar movement in other active issues. American Tobacco declined to 211 1/2, against previous close of 210 1/8.

Call money continued at 14 per cent. Sales for the first hour were 788,000 shares.

Liberty bonds continued to sag, but were off only fractionally.

The cotton market broke sharply at the opening, prices falling from 12 to 11 1/2, and then declining to 11 1/4, to 11 1/8 points below the previous close, following the crash in foreign exchange.

The only notable exception was May cotton which was up four points at the opening.

Tuesday's big sellers were again pounding all options. Liverpool after buying at 6 1/2, became a heavy seller.

After the first 15 minutes, price steadied for a time on trade buying. Shortly before the market closed call money jumped from 18 to 25 per cent.

## Investigation

If the folks who purchase stocks would investigate more thoroughly, before buying, there would be fewer 'wildcat' promotions. Taking the word of the man who is selling the stock, as to what the company is, and the management, is, costs the investing public a pretty penny every year.

Our company is particularly fortunate in having a Board of Directors consisting of Bankers and business men whose judgment on
